Revelations About This Revelation

SUSAN G. SHUMSKY'S VISIT to Chicago to promote her spiritual self-help book, *Divine Revelation*, is one of a series of stops the ambitious author has scheduled for herself in an effort to reach a wide audience with the non-denominational message she believes in fervently. Since last August, when the paperback original was published by Simon & Schuster/Fireside,

Shumsky has traveled the country by van from bookstores to health expos to holistic health centers and learning annexes. "I even went on a cruise trip, the Inner Voyage Cruise," she says. "That was the best." She expects to be touring "indefinitely," though she calls

SHUMSKY is touring "indefinitely" for the books.

New York City her home.

Divine Revelation, a selection of Book-of-the-Month Club's One Spirit division, is Shumsky's first book. "It's very popular right now to listen to voices, but people are doing it indiscriminately," she says. "My book is about becoming spiritually street smart. I call it practicing safe spirituality. It's about

learning how to listen to the small, still voice within you and using it in everyday life to discover direction and inner purpose, among other goals." To help readers get past the "ego-chatter" cluttering their path to the spirit, Shumsky devotes a chapter to "Nine Tests to Prevent Psychic Deception."

Shumsky came to BookExpo to meet with booksellers, talk about her book and dispense autographs. "I also hope to sell foreign rights," she says confidently. The tireless author holds a doctor of divinity degree from Teaching of Intuition Metaphysics, a California-based New Thought church that is a member of the International New Thought Alliance. She can be found at booth 1635 in the Religious/Spiritual/Inspiration aisle.

By Susan Shumsky, D.D.
New Page Books

Today, more than ever, a sense of inner knowing is essential. Making wise decisions with confidence is increasingly vital to happiness, health, even survival. Yet many are at a loss when confronted with difficult choices. That is why having an inner counselor, on whom we can rely, can bring peace and solace.

In this world of confusion, how can we discover the right path? The spiritual self-book *How to Hear the Voice of God* provides some

answers. For the "still small voice" within can lead us safely through the wilderness.

Deep within every soul is a wise sage, the source of wisdom. Hidden like a treasure buried at the bottom of the sea, it can only be used when brought to the surface. This book is a journey into the depths to reclaim the "pearl of great price"-the higher self or God within. This book provides an opportunity to meet and consciously communicate with that inner guru.

A special CD bound into the book helps readers open to the inner voice through a powerful, field-proven guided meditation that tens of thousands have used to successfully develop their intuition in a practical way.

Through this inspiring book, readers will learn:

- How to meditate and to experience the divine presence directly.

- How to get clear, precise messages and answers to practical questions from the "in-house counselor."

- How to release blockages that prevent them from hearing the divine voice.

- How to distinguish between the true divine voice and other inner voices.

With *How to Hear the Voice of God*, readers can open the pipeline to Spirit and begin the flow of divine guidance, love, healing, wisdom, and inspiration from the center of being within.

“Miracle Prayer” is a book that is part of Dr. Shumsky’s Divine Revelation teachings. It provides you with the means and knowledge of how to obtain divine guidance to assist you with developing greater spiritually and with realizing God. Within the pages are valuable exercises, affirmations, and prayers to assist you. If you feel like you have been praying forever and that your prayers are not being answered, this book can help you. You will learn the method of “Scientific Prayer,” which will teach you the steps to praying effectively.

I had to give “Miracle Prayer” five stars because it is by far one of the best books on prayers that I have ever encountered. I could not find anything lacking. It is very well-organized, well-thought-out, thought-provoking, and offers affirmations and prayer samples to help you along your way. I am so excited about putting this prayer method into action. I truly feel hope!

“Miracle Prayer” was written for a person like me. I have some beautiful dreams and aspirations, but seem to have hit a roadblock in reaching them. By implementing the nine steps to obtaining my goals, I have also become aware of the ways in which I was blocking myself from obtaining them. This book is written with a great deal of love and faith for the reader. These feelings shine through the pages. I feel truly blessed for having the opportunity to read “Miracle Prayer.”

If you are feeling like everything is hopeless, “Miracle Prayer” will not only give you hope, but also the steps that you need to take to achieving your dreams. As Dr. Shumsky, who sees the beauty in everything, says in her dedication, “Never, never, never, give up.”

DIVINE REVELATION

By Susan Shumsky

Fireside Book.
Softcover. \$11.00. 286 pp.

Learning how to meditate can be one of the most challenging and difficult things to accomplish. Thirty years of daily practice and study has helped Susan Shumsky develop *Divine Revelation*, a simple and practical way to seek spiritual wisdom (Shumsky lived in the Himalayas in complete silence and meditation for seven years, and was on Maharishi Mahesh Yogi's personal staff).

Of *Divine Revelation*, Shumsky says: "Divine Revelation is a technique of

intuitional development, a way to hear the divine voice within. It is a method that enables one to augment his or her innate intuitive abilities, identify the source of intuitive messages and test their authenticity, overcome resistance to

divine contact, and become self-reliant in solving personal problems."

This is a wonderful, step-by-step guide to the path of spiritual discovery. *Divine Revelation* can teach you how to become your own spiritual adviser. ♦

SUTRAS

Donovan

American Recordings,
CD, 14 songs.

Back in the sixties, one of the most charismatic figures of the flower generation was a pixie-faced poet/singer named Donovan. His songs--*Sunshine Superman*, *Mellow Yellow*, *Season of the Witch*, *Wear Your Love Like Heaven*--helped shape the direction of the then youth movement. Donovan's breathy vocal style and optimistic message prompted the press to call him "The Troubadour of Rock." Then in 1970, at the height of his popularity, he vanished from the music scene and remained in relative obscurity for the next twenty five years.

With his new CD, *Sutras*, Donovan is back in full force. Although the CD centers around the acoustic sound that launched his career, *Sutras* is not a retro album, but the expression of a mature master at the top of his form. Donovan accompanies his vocals with acoustic guitar, and is backed by lean, focused instrumentation provided by some of the day's top musicians, including keyboardist Benmont Trench from Tom Petty and the Heartbreakers and Dave Navarro of the Red Hot Chili Peppers.

As the title suggests, *Sutras* is a spiritual recording. Even the love songs seem to come from a deep spiritual source. "Please Don't Bend" is a love ballad with haunting lyrics and an enchanting melody that has the impact of a transcendent experience. "Give it All Up" is a heartfelt and personal pledge of love. He

sings: No diamond brighter than/the light within your eyes/No star I gaze at/Brighter in these skies/No sadness deeper than/this longing for you/I'd give it all up/to be with you.

Other songs worth mentioning are: "The Way," an upbeat setting to music of lines from Lao Tzu's Tao Te Ching featuring Dave Navarro on electric sitar; "The Evernow," an hypnotically tranquil ode to the timeless state of meditation; and the final song, "Universe Am I," an anthem of hope for the day when . . . "the universe will shine."

In 1968, when speaking of Donovan's impact on the music scene, John Lennon said: "Donovan is as important and influential as Bob Dylan and we (The Beatles) are . . . listen, the man's a poet." He still is, and this CD will take you on a poetic and spiritual journey, Donovan-style. ♦

DIVINE REVELATION by Susan G. Shumsky. \$11, 0-684-80162-0, Fireside/Simon & Schuster. Hearing the voice of the divine can be as simple, says Shumsky, as opening ourselves up—through a step-by-step meditation—to what is already within. This is a pragmatic, down-to-earth, comprehensive book written by a self-confessed “ordinary person” who reassures us that if she can do it so can we, following techniques tested by thousands at her seminars. In the best tradition of the New Age, she does not proscribe religious belief but shows the common elements in many religions that support the work she is doing. She lucidly spells out the how-tos for spiritual breakthrough, providing nine tests to be sure the source of your message is indeed divine. Lots of pre-pub endorsements suggest a work with widespread appeal. -SC
